Block 10.

The project can involve up to 8 blowback filters, with a total of 480 cartridges.

While the systems do have automatic cleaning, the delta of pressure can increase over time and lead to a need for additional cartridges.

The minimum usage could be to change them 1 times in 5 years (or at least one set of security stock) which would mean 480 for the first set + 480 for spares = 960 cartridges.

The maximum usage could be 480 for the first set + 3 other sets of 480 cartridges in 5 years = 1920 cartridges.

We are requesting authorization to ship the maximum number of cartridges that could be used within the 5 year period of the license.

**Re: Application for NRC Export License – NRC Form 7 – Confidential
Treatment Requested for Certain Information Contained Therein**

Dear Mr. Mamish:

Pall Corporation ("Pall") hereby submits this export license application for Dynalloy Metal Bag Filters. Enclosed please find the signed original NRC Form 7 and a check in the amount of \$4,200 made payable to the U.S. Nuclear Regulatory Commission.

Due to the confidential nature of the information provided in the export license application, Pall respectfully requests that the "total dollar value" and the identity of the "ultimate foreign consignee" be treated as confidential commercial and financial information and thus withheld from public disclosure pursuant to 10 C.F.R. § 2.390(a)(4). Release of the information to Pall's competitors and/or customers would cause substantial harm to Pall because such information provides business secrets about Pall's products that competitors and/or customers could use to their business advantage and Pall's disadvantage. Further, we request that the "total dollar value" and the identity of the "ultimate foreign consignee" provided in the enclosed export license application not be disclosed under the Freedom of Information Act or otherwise disclosed, without Pall's written permission. Pall has included an affidavit signed by a corporate officer in support of its request for confidentiality treatment as required under 10 C.F.R. § 2.390.

Should the NRC have any further questions regarding this matter, please contact the undersigned at 516-801-9846 or Jerry_Hanifin@pall.com.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Jerry Hanifin". The signature is fluid and cursive, with the first name "Jerry" being more prominent than the last name "Hanifin".
