Dear Mr. Keppler:

MONTICELLO NUCLEAR GENERATING PLANT  
Docket No. 50-263 License No. DPR-22

In compliance with your request outlined in IE Bulletin 75-04A, this monthly summary report is submitted. All items scheduled for completion by August 1, 1975, as discussed in our response to IE Bulletin 75-04A (reference letter from L. J. Wachter to J. G. Keppler, dated June 27, 1975) have been completed with one exception. Due to unexpected demand of availability of key plant personnel, the review of fire detection sensor and fire hose station locations to verify adequate coverage has not yet been completed; however, this review should be completed by September 5, 1975. All remaining items are still expected to be completed as scheduled.

Yours very truly,

A handwritten signature in dark ink, appearing to read "L. J. Wachter".
