In the Matter of Northern States Power Company  
Monticello Nuclear Generating Plant, Unit 1  
Docket No. 50-263

Gentlemen:

On July 6, 1970, the atomic safety and licensing board designated to preside in the captioned proceeding certified two questions to the Atomic Safety and Licensing Appeal Board for consideration. In the document certifying the two questions, we were requested to forward to the Atomic Safety and Licensing Appeal Board copies of our letters of June 1 and June 8, 1970, together with copies of the materials transmitted therewith.

In accordance with that request, we are transmitting three copies of each of the above-referenced letters and a similar number of the enclosures to those letters with the exception of enclosure 1 to the June 1, 1970, letter. We are transmitting one copy of enclosure 1 to the June 1, 1970, letter since additional copies are not available.

The three copies of the unedited inspection reports, which are identical to the copies of the inspection reports transmitted to the atomic safety and licensing board under cover of the June 8, 1970 letter, are transmitted to the Atomic Safety and Licensing Appeal Board for the sole purpose of permitting in camera
