Dear Mr. Skovholt:

MONTICELLO NUCLEAR GENERATING PLANT
Docket No. 50-263 License No. DPR-22

Extension of Time for Response to Request for
Information on Control Rod Poison Tubes

Your letter dated September 5, 1973 requested information within 30 days on the effects of postulated boron carbide redistribution if some control rods contained inverted poison tubes. We have not been able to collect all the requested information for submittal by October 5, 1973 as requested and have so informed our AEC-DL Project Manager. It appears that all the information will be available next week and we expect to prepare the report for submittal on or before October 17, 1973.

Yours very truly,
