**Subject:** Strata UR Ross Site Project

Alan and Johari,

Thanks so much for your time and for your visit out to Wyoming to coordinate a tour of the Ross site. Having the opportunity to meet with you and the AEC team early on in the the process is quite valuable. Thanks again for that.

As we have learned a bit more about the project we have expressed some additional wildlife and habitat concerns, which were discussed at Tuesday's meeting. Given this new information, the department would like the opportunity to provide more formal comments to the NRC regarding the Ross site project. In an effort to provide you and your NEPA team the most complete information that we can regarding wildlife and habitat resources, it would be helpful to have a shapefile of Strata's project areas, including both the Ross site and the Barber site.

I'd like to request 30 days to get all of our comments put together after having an opportunity to evaluate the shapefile. If you could send that my way, that'd be great, and we can rolling.

Give me a shout if you have an questions or concerns...have a great weekend!
