Yolande Norman, Project Manager
U.S. Nuclear Regulatory Commission
Two White Flint North
11545 Rockville Pike
Rockville, MD 20852

Dear Ms. Norman:

Enclosed are the following final documents for the Shallow Land Disposal Area (SLDA) remediation project:

(b)(5)

C-18

(b)(5)

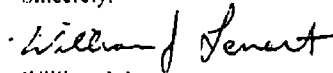

c. Final Status Survey Plan

These documents have been prepared in support of the remedial action being conducted by the U.S. Army Corps of Engineers under the authority of the Formerly Utilized Remedial Action Program (FUSRAP) and are the final documents that will be utilized in the execution of the remediation of the SLDA project. They have been reviewed and accepted for use by USACE.

(b)(5)

(b)(5) If you have any questions or need additional information, please contact me at (b)(6) or by email at (b)(6). The District looks forward to our continued relationship in completing this important project.

Sincerely,

William J. Lenart
Project Manager SLDA
