MEMORANDUM TO: Ronaldo Jenkins, Chief
Licensing Branch 3
Division of New Reactor Licensing
Office of New Reactors

FROM: Michael Eudy, Project Manager */RA/*
Licensing Branch 3
Division of New Reactor Licensing
Office of New Reactors

SUBJECT: SUMMARY OF THE OCTOBER 27, 2011, PUBLIC MEETING WITH
BLUE CASTLE HOLDINGS TO DISCUSS PRE-APPLICATION
ACTIVITIES AND SEISMIC ISSUES INVOLVED WITH THE PENDING
BLUE CASTLE PROJECT EARLY SITE PERMIT

On October 27, 2011, a public meeting was held between the U.S. Nuclear Regulatory Commission (NRC) staff and the pending early site permit (ESP) applicant, Blue Castle Holdings. A meeting notice was issued on October 14, 2011, and was documented in the Agencywide Documents Access and Management System (ADAMS) under Accession No. ML111790054. The purpose of the meeting was to discuss pre-application activities regarding Blue Castle Holdings pending Blue Castle Project ESP application in addition to technical discussion regarding proposed seismic analyses and methodologies that will be used to support the submission of their ESP. Questions from the public were helpful in shedding light about the pre-application review process along with environmental and emergency planning issues.

Blue Castle Holdings gave three non-proprietary presentations entitled, "Introduction to Blue Castle Holdings and the Blue Castle Project ESP Application" (ML113530666), "Overview Geotechnical Site Investigation for ESP" (ML113530693), and "Blue Castle SSHAC Level 3 Study" (ML113530762). The purpose of this meeting summary is to briefly describe the meetings, its participants and document the presentation slides.

This Category I meeting was open to the public in its entirety. The meeting closed at approximately 4:00 p.m. after public comments were discussed. The NRC staff thanked the participants for their participation. Please direct any inquiries to me, at 301-415-3104, or via e-mail at Michael.Eudy@nrc.gov.
