Docket No. 030-30808

License No. 29-13141-06

Susan F. Hallowell, Ph.D.
Director, Transportation Security Laboratory
Department of Homeland Security
Wm. J. Hughes Technical Center
Building 315
Atlantic City IAP, NJ 08405

SUBJECT: NRC INSPECTION REPORT NO. 030-30808/2011-001, DEPARTMENT OF
HOMELAND SECURITY, ADDITIONAL INFORMATION REQUESTED

Dear Dr. Hallowell:

This letter refers to your November 22, 2011, correspondence, in response to our November 2, 2011, letter. We reviewed the corrective and preventive actions documented in your letter. Corrective actions for 4 of the 5 violations were acceptable. However, there was not a discussion of how you will comply with the requirement to perform an annual review of your radiation protection program. This is of particular concern to us, because such a review could have prevented the number and duration of the violations that were identified by the inspector. Please describe your method for complying with the requirement, 10 CFR 20.1101(c), to perform an annual review of your radiation protection program.

In addition, during our inspection exit meeting on October 18, 2011, you agreed that you would request an amendment of your license to: (1) name additional authorized users; and (2) list two trailers (the TECS Laboratory and the HME Laboratory) as permanent locations of use. In our letter dated November 2, we requested that you submit the amendment request separately from your response to this Notice of Violation. That amendment request has not been received. Please submit the amendment request as agreed upon.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and your response will be made available electronically for public inspection in the NRC Public Document Room or from the NRC document system (ADAMS), accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>. To the extent possible, your response should not include any personal privacy, proprietary, or safeguards information so that it can be made available to the Public without redaction.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Regulations, Guidance and Communications**. The current Enforcement Policy is included on the NRC's website at www.nrc.gov; select **About NRC, Organizations & Functions; Office of Enforcement; Enforcement documents**; then **Enforcement Policy (Under 'Related Information')**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

S. Hallowell
