RE: Request for Amendment to License # 37-20647-01

To whom it may concern:

RECEIVED
REGION 1
2011 DEC 21 AM 11:03
03020034

This letter serves as a request to amend our license (#37-20647-01) to remove our storage location for our Nuclear density Gauges. We no longer have a need to keep gauges on hand at the following locations:

Gannett Fleming Inc.
66 Wooster Heights Road
Danbury, CT 06810

Please remove this location from our current license. Gauges have not been stored at this location since 9 December 2011. The gauges previously stored there are now stored at the New Have address currently listed on our license. All NRC requirements for storage will be met and monitored at this location. Records will also be maintained on site, to include any and all amendments to the license.

If you have any questions or require further information, please contact Ray Deering at 717-763-7212, extension 2595, or Jim Powers at extension 2841.

Very truly yours,

GANNETT FLEMING, INC.

RAYMOND S. DEERING
Radiation Safety Officer
