Sam,
We will need to discuss this next week. Can we add it to the Tuesday afternoon telecom agenda?

Cliff:

The issues our staff will like to go over tomorrow (if possible) or early next week are:

- 1- Verify that leak trenches on the floor are unlined concrete
- 2- Verify that leakage for PH and Iron will be monitored via the SMP
- 3- Where does the 5" band comes from?
- 4- Boroscope requirements
- 5- UFSAR supplement for the Periodic Inspection Program

Let me know if we can have this call tomorrow or next week.

Thanks
