Mr. Larry A. Smith  
Honeywell International, Inc.  
P.O. Box 430  
Highway 45 North  
Metropolis, IL 62960

SUBJECT: HONEYWELL METROPOLIS WORKS – REQUEST FOR 30-DAY EXTENSION  
FOR RESPONSE TO REQUESTS FOR ADDITIONAL INFORMATION ON THE  
SURFACE IMPOUNDMENT DECOMMISSIONING PLAN

Dear Mr. Smith:

In your letter dated December 29, 2011, you requested an extension of 30 days for Honeywell Metropolis Works (HMW) to respond to Requests for Additional Information (RAIs) that the U.S. Nuclear Regulatory Commission (NRC) issued to Honeywell November 4, 2011. These RAIs pertain to the NRC's review of the HMW Surface Impoundment Decommissioning Plan. This action would extend the date for receipt of the RAI responses from January 13, 2012, to February 13, 2012.

In its December 29, 2011, letter, Honeywell accepts responsibility for any delay to the overall project timeline that the RAI response schedule may cause. Furthermore, Honeywell requests that the reviews NRC is conducting on the submittal continue. On this basis, NRC approves the request for the 30-day extension and will continue reviewing the submittal. The reviews will continue to the extent feasible since the delay in the RAI responses may impact the reviews.

If there are any questions concerning this matter, please contact me at 301-492-3180.

Sincerely,
