Dear Ms. Schmitt:

We have reviewed the proposed revisions to the definition of byproduct material in the proposed change to Nebraska's Radiation Control Act received by our office on January 3, 2011. The proposed change to the definition in the Nebraska legislation was reviewed by comparison to the definition of byproduct material found in 10 CFR 20, "Standards for Protection Against Radiation." We discussed our review of the regulations with Trudy Hill on January 20, 2012.

As a result of our review, we have no comments. Please note that we have limited our review to program elements required for compatibility and/or health and safety and the identification of program elements that create conflicts, duplications or gaps in the orderly pattern of regulations on a nationwide basis (See the 1997 Policy Statement on Adequacy and Compatibility of Agreement State Programs).

We have determined that the definition of byproduct material, as proposed, meets the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Management Programs (FSME) Procedure SA-200.

The State Regulation Status (SRS) Data Sheet summarizes our knowledge of the status of other Nebraska regulations and legally binding requirements, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the FSME website: <http://nrc-stp.ornl.gov/rulemaking.html>.

If you have any questions regarding the review results, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Kathleen Schneider, State Regulation Review Coordinator at 301-415-2320 (email: kathleen.schneider@nrc.gov).

Sincerely,

/RAA.D. White for/

Pamela Henderson, Acting Deputy Director
Division of Materials Safety and State Agreements
