Operating Reactors Branch No. 4

Subject: Duke Power Company
Oconee Nuclear Station
Docket Nos. 50-269, -270, -287

Dear Mr. Denton:

Attached are five copies of Revision 3 to the Duke Power Company Response to Supplement 1 to NUREG-0737 for Oconee Nuclear Station. This document was originally submitted as an enclosure to my letter of April 14, 1983.

The attachment includes the Duke Control Room Review Final Report and the Oconee Units 1, 2 and 3 Control Room Review Supplemental Report. The contents of these two reports comprise the control room review summary report for Oconee Units 1, 2 and 3 as required by paragraph 5.2b of Supplement 1 to NUREG-0737. This revision does not include the implementation schedule for control room modifications resulting from the completed Oconee Control Room Review. The implementation schedule is currently under development and will be contained in a subsequent revision to be submitted in accordance with the original commitment date made in the April 14, 1983 Duke response.

Additionally, in accordance with the original commitment date, Revision 3 also contains the Oconee SPDS Safety Analysis.

Instructions for inserting Revision 3 into the Oconee document are included as part of the attachment.

Very truly yours,

H. B. Tucker
Hal B. Tucker
