REPRESENTED PERSON or PERSONS		
Bruce D. Goethe, M.D., Radiation Safety Officer		
ORGANIZATION		
Bronson Lakeview Hospital		
(formerly Lakeview Community Hospital)		
SUBJECT		
License No.: 21-26716-01		
Control No.: 575605		

SUMMARY

We have reviewed your requesting license renewal application and find that we are unable to continue this action until we have received information regarding the following:

The radioactive materials license renewal application indicates that the licensee name is Bronson Lakeview Hospital, while the most recent license amendment indicates that the licensee name is LakeView Community Hospital. We cannot change a licensee name without a specific request to do so. If a transfer of control is indicated, please provide additional information as outlined in NUREG 1556, Volume 9, Revision 2, Appendix G.

RESPONSE: The contact person indicated, via phone conversations on December 30, 2011, and January 3, 2012, that the required information would be submitted on or before January 9, 2012, via facsimile. A copy of the referenced NUREG appendix, attached, was faxed to the licensee on January 3, 2012. The requested transfer of control and name change information was received via facsimile on January 5, 2012. Accordingly, no additional information is required for this item.

We have requested that you submit the referenced item –

- **Information needed for a name change and/or transfer of control**

– via facsimile, to (630) 515-1078. Please reference the Control No. 575605, as listed at the top of this memo. The requested information was received. ~~No~~ additional information is required at this time.

For future reference, please always include the name, phone number and fax number of at least one person whom we may contact for additional information when reviewing your licensing correspondence and requests.

Please submit the requested information within 10 days of this record. **Include reference control number 575605, Please FAX your response to my attention at (630) 515-1078.** You may also scan your response and send to me via email, as a pdf file.

Please direct any questions you have to me at **(630) 829-9892** or **sara.forster@nrc.gov**.

Information Needed for Transfer of Control

The following information is taken from NUREG-1556, Volume 15, "Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Changes of Control and About Bankruptcy Involving Byproduct, Source, or Special Nuclear Material Licenses."

Definitions

Control: Control of a license is in the hands of the person or persons who are empowered to decide when and how that license will be used. That control is to be found in the person or persons who, because of ownership or authority explicitly delegated by the owners, possess the power to determine corporate policy and thus the direction of the activities under the license.

Transferee: A transferee is an entity that proposes to purchase or otherwise gain control of an NRC-licensed operation.

Transferor: A transferor is an NRC licensee selling or otherwise giving up control of a licensed operation.

Licensees must provide full information and obtain NRC's *prior written consent* before transferring control of the license. Provide the following information concerning changes of control by the applicant (transferor and/or transferee, as appropriate). If any items are not applicable, so state.

1. Provide a complete description of the transaction (transfer of stocks or assets, or merger). Indicate whether the name has changed and include the new name. Include the name and telephone number of a licensee contact whom NRC may contact if more information is needed.
2. Describe any changes in personnel or duties that relate to the licensed program. Include training and experience for new personnel.
3. Describe any changes in the organization, location, facilities, equipment, or procedures that relate to the licensed program.
4. Describe the status of the surveillance program (surveys, wipe tests, quality control) at the present time and the expected status at the time that control is to be transferred.
5. Confirm that all records concerning the safe and effective decommissioning of the facility will be transferred to the transferee or to NRC, as appropriate. These records include documentation of surveys of ambient radiation levels and fixed and/or removable contamination, including methods and sensitivity.
6. Confirm that the transferee will abide by all constraints, conditions, requirements, and commitments of the transferor or that the transferee will submit a complete description of the proposed licensed program.
