I request your strong opposition to the William States LeeIII Nuclear Station Units 1 and 2 licenses. A nuclear power plant can be dangerous. Why have so many countries now decided to shut down nuclear power plants over time, for sure not build new ones? The impact of the nuclear plant will have on the water sources in terms of use and waste is not justifiable. In addition, Duke Power is proposing a rate hike from its customers to fund the purchase of Progress Energy and the construction of this unwanted nuclear power plant! Please say NO and ask for proposals of renewable energy. Thank you,
Irene Stoll
