General Comment

I support this project and believe that it will be a positive contribution to Lea County and will fulfill an important role in the safe and environmentally sound treatment of depleted uranium hexafluoride and I believe the draft Environmental impact Statement thoroughly reviews all of the potential environmental impacts from the proposed facility I also believe the facility will produce important fluoride products for U.S. markets and be an asset to U.S. chemical manufacturing capability. I agree with the conclusions reached by the NRC staff that the impact to Lea County would be minimal.
