Reference: NRC Letter dated 12/23/2011 - Project No. 694 – “Request for List of  
Planned Topical Report Submittals for FY2012, FY2013, AND FY2014  
” – ML113460593

By the letter dated December 23, 2011, the NRC requested, as part of the ongoing efforts to improve the effectiveness and efficiency of the topical report (TR) program, that up-to-date information on future TR submittals be submitted for NRC planning and budgeting purposes.

Attachment A includes the Topical Reports planned by the Pressurized Water Reactor Owners Group (PWROG) in FY 2012 through FY2014 which are applicable to operating plants. Please note that this list includes those Topical Reports that are still in the conceptual phase and have possibly no approved funding at this time. In addition, this list does not include Westinghouse or AREVA submitted Topical Reports, only Topical Reports planned to be submitted through the PWROG.
