January 23, 2012

Docket No. 03030299  
Control No. 576681

License No. 47-24954-01

William D. Swecker  
Radiation Safety Officer  
Swecker Engineering  
120 S. Randolph Ave.  
Elkins, WV 26241

SUBJECT: SWECKER ENGINEERING, ADMINISTRATIVE LICENSE AMENDMENT,  
CONTROL NO. 576681

Dear Mr. Swecker:

This refers to the subject NRC license. The latest amendment to your license (Amendment No.03) does not include maximum possession limits for the radioisotopes authorized on the license. Current NRC policy requires that a license include a maximum possession limit for each radioisotope authorized on the license. Therefore, we have administratively amended your license to incorporate this requirement and item 8 of the license is revised to include maximum possession limits for the radioisotopes authorized on the license. These limits are based on the information provided by you in our telephone conversation on January 11, 2012.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

Thank you for your cooperation.

W. Swecker
