Office of Nuclear Reactor Regulation

Charles Ader, Director  
Division of Safety Systems and Risk Assessment  
Office of New Reactors

Richard Lee, Chief  
Fuel and Source Term Branch  
Division of Systems Analysis  
Office of Nuclear Regulatory Research

FROM: Richard Correia, Director */RA/*  
Division of Risk Analysis  
Office of Nuclear Regulatory Research

SUBJECT: APPOINTMENT OF GENERIC ISSUE REVIEW PANEL  
MEMBERS, PRE-GI-010

Pending approval from your branch or division, the individuals named below are appointed to serve as Generic Issue Review Panel members for a proposed Generic Issue pertaining to dispersal of fuel fragments during a loss-of-coolant accident. The issue was proposed by the Office of Nuclear Regulatory Research (RES) Division of Systems Analysis. The issue proposal is available under Agencywide Documents Access and Management System (ADAMS) Accession No ML112930079.

Following the acceptance of the issue documented under ADAMS Accession No. ML112910156, the Generic Issue Program staff began preparation of a screening analysis for the review panel per guidance provided in Management Directive 6.4, "Generic Issues Program," dated November 17, 2009. This screening analysis is nearing completion and RES staff is available to support and present the analysis to the panel. Following the review of the screening analysis and appropriate coordination with affected regulatory offices, the review panel is asked to provide a recommendation to the RES Office Director on how the proposed issue should proceed.

CONTACT: Benjamin Beasley, RES/DRA  
301-251-7676

We expect this activity to start in February 2012, conclude by April 2012, and require 20 to 30 hours from each panel member. Mehdi Reisi-Fard, of my staff, is the Responsible Program Manager for the screening phase of the activity. If you have any questions or comments concerning these appointments or the proposed issue, please do not hesitate to contact Ben Beasley.
