Subject: OPPOSITION TO THE proposed WILLIAM STATES LEE NUCLEAR PLANT

I am opposed to the proposed nuclear plant in Gaffney, SC. I am not at all convinced that nuclear power is safe or that Duke Power knows how to manage such plants. The recent problems with the Fukushima Plant in Japan have highlighted this issue and I do not believe that any more plants should be built. We need to focus on solar and wind energy as well as energy use reductions. I live near Gaffney and do not want this facility in my backyard.
