Dear Lee Colaeis,

I am writing in response to an e-mail I received regarding the possible construction of a Nuclear Power Plant in Gaffney, SC.

I am very much against the proposal. I have a farm NW of Asheville, NC. and along with my family would be subjected to any risk of radiation exposure from such a facility. I have teen aged children who plan to raise their children on the farm. Please don't gamble with their lives! I am convinced that our government has the financial resources, intelligence and imagination to find alternative energy sources that do not create the risk involved in Nuclear Energy. We have the potential to lead the world in clean energy technology and ingenuity. Please do not build this facility.

Regards,
Mary Dixon
Hot Springs, NC
