Hello. I am taking the time to let you know that as a resident of western North Carolina, very close to the South Carolina border, I am extremely concerned about the consideration of a nuclear power plant proposed for Gaffney, South Carolina.

The dangers to human life that come from exposure to these plants and to nuclear energy is well-known and well-documented.

It is time for those in command to make decisions that support the highest good of humanity, not the deep pockets of a few who will reap all the financial benefits and will position them- selves so that they are not in the danger zone.

You had the opportunity now to do what is right for your fellow humans -- your own family and your future generations.

Please see to it that this plan is defeated.

Most appreciatively,
Christine Glaser
Flat Rock, NC
