I live in Hendersonville NC. I am in the potential problem danger zone. Nuclear power is not safe. Nuclear power is non-renewable, and the spent fuel storage issues are insane. Nuclear power does not ease the petroleum and gas extraction crisis. Speak out. Quit your job and do something good for mankind. First you must read "The Last Hours of Ancient Sunlight" by Thom Hartmann. You will then begin to understand the crisis at hand, and how easy it is to solve our problems.

Sincerely, Richard Collins
