Dear Sir or Madam:

I am writing tonight to tell you that I OPPOSE a new nuclear power plant in Gaffney, SC. With the examples of Three Mile Island, Chernobyl, and Fukushima, it is CLEAR that nuclear power is NOT SAFE.

And even if it were, there has been no SAFE plan developed on what to do with the nuclear waste from nuclear power plants.

On top of all that waste and all that danger, there is no way that nuclear power plants can be developed or built without massive subsidies from the government. I am sick and tired of all this corporate welfare for industries that are unsafe and unwelcome in my country. I do not want to be stuck with pre-construction costs in my utility bills.
