Docket No. 030-38291
License No. 04-29076-02
Control No. 576328

Dear Mr. Cargill:

This is in reference to your letter received November 7, 2011 requesting to amend Nuclear Regulatory Commission License No. 04-29076-02. In order to continue our review, we need the following additional information:

1. Demonstrate that the RSO has sufficient independence and direct communication with responsible management officials by providing a copy of an organizational chart by position, demonstrating day-to-day oversight of the radiation safety activities.
2. Please provide a copy of both sides of the Radiography card issued to Mr. Brett Payton by a certifying entity.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention and refer to Mail Control No. 576328. You may attach your response as a PDF document via e-mail, or fax it to 817-200-1188. If you have any technical questions regarding this deficiency letter, please call me at (817) 200-1596.

If we do not receive a reply from you by **Thursday, February 2, 2012** we will assume that you do not wish to pursue your renewal application.

Sincerely,
