**Subject:** NRC Dec 2011 report

**To NRC for the record,**

### **Residents Organized for Safe Environment (ROSE) Statement of Concern:**

**ROSE** believes that the NRC's stated alternative to Change the Waste Confidence away from the small step approach to the long-term Waste Confidence program for 200 years to make nuclear power plant sites into nuclear waste dumps for 200 years is shortsighted and completely without regard for the safety of the millions of citizens who populate the areas around these power plants.

This type of decision by the NRC, demands that the public take action to secure its own safety from the hazards of such a nuclear waste dump in their vicinity wherever it is located. It calls into question the very mandate itself of the NRC "Protecting People and the Environment" and leads us to the conclusion that the NRC is no longer capable of Protecting the People and the Environment. This may mean it is time to consider disbanding the NRC and forming a new protective agency led by the citizens themselves who have no vested interest in protecting the nuclear industry.
