Name of Licensee: Charlotte Hungerford Hospital

Name of Participant(s): Susan Musser, Ph.D., Physicist
George Pavlonnis, M.S., Physicist

Telephone No. SM: 860-489-6718, mussersu@msu.edu
GP: 860-331-9379, gp219@columbia.edu

Subject: Amendment request to add HDR AMPs and AU
(NOTE: This will be used as the Documents Title in ADAMS)

This record summarizes a series of telephone and email communications on the date referenced above.

Susan called to ask if it is acceptable for her and/or George to perform an HDR source exchange in the next few days. I informed her that she meets the exception in 10 CFR 35.13(b)(3) and George meets the exception in 35.13(b)(4)(1), so both may work prior to issuance of the amendment. The amendment request included the required notification information per 35.14(a). Therefore, the amendment request may be viewed as a notification. Susan and/or George may perform the source exchange and associated full calibration.

I contacted George to ask if the proposed AU, Dr. Kratzer, has received training on GammaMed HDR use. Dr. Kratzer meets the exception in 35.13(b)(4)(1), however NRC records show only Nucletron training and experience. George said that he will provide to Dr. Kratzer the training required by 35.690(c) for use of the licensee's GammaMed unit within the next few days, then submit documentation.

Action Required: Await documentation of GammaMed training for Dr. Kratzer, then issue amendment
