Subject: additional request for license amendment
Attachments: Request for Amendment to License-diamond.doc

Dear Mr. Struckmeyer,

As I mentioned in a previous email, I have been preparing an additional amendment to my license to allow for testing irradiated diamonds for U.S. release. This has become a serious issue in the market; I have received about a dozen different requests for testing services that I have been unable to fulfill, as the existing license does not cover that activity. Attached is my proposed amendment. I hope you find it adequate, and will be happy to expand, elaborate or adjust it as you may require.

Thanks for your attention.

Bill Yelon
