SUBJECT: Submittal of Draft Slides for Presentation and Tentative Agenda for a Closed Meeting on February 29 and March 1, 2012 (NRC Project: 0769)

NuScale Power has requested a meeting with NRC technical staff on February 29 and March 1, 2012 to discuss three topics: loss-of-coolant accident phenomenon identification and ranking table (LOCA PIRT), dynamical system scaling methodology, and test programs. We requested a closed meeting due to the proprietary information that will be presented, as stated in the affidavit in Enclosure 2.

Attached are two draft versions of the Testing Programs slides that will be presented as the basis for requesting a closed meeting. Enclosure 3 is the proprietary version. We request that the proprietary version be withheld from public disclosure in accordance with the requirements of 10 C.F.R. § 2.390. Enclosure 1 is the affidavit in support of that request. Enclosure 2 is a redacted nonproprietary version of the draft slides.

Please feel free to contact me at 541-207-3931 or ewallace@nuscalepower.com if you have any questions.

Sincerely,

Edward G. Wallace
Vice President, Regulatory Affairs

Enclosure 1: Affidavit

Enclosure 2: Draft slides on Testing Programs – nonproprietary (16,699 kilobytes)

Enclosure 3: Draft slides on Testing Programs – proprietary (23,908 kilobytes)
