Thanks. I understand from the call that these questions are essentially obsolete based upon the revisions to the DCD and R-COLA. New questions will be issued but they will not necessarily be direct follow-ups to the original questions. I do not need additional feedback at this time.

Hi Don,

I will check on the 2 RAIs for Chapter 9 3698 and 3762 and get back to you on the status.

Regards,

Paul

Steve,

I forgot to attach this file with the closed/unresolved questions for which we could not identify follow-up questions.

Subject: 2012-02-01 Woodlan, Talking Points and Material for COLA Conference call

Steve,

Attached are the files for today's COLA conference call. I have made a change in the Talking Points and Open Items lists. I no longer include SER Open Items from the eRAI table if the eRAI status is Issued, Confirmatory or Resolved/Closed.

I note that the questions in the responded category is down to 18 (RAIs 14) which is a good improvement. Many of the questions removed from this category were some of the oldest.

I have added two files this week. One is a list of all the Closed/Unresolved RAIs and questions. There are 51 RAIs and 155 questions in this category and of the 155, we have not been able to identify follow-up questions for 42. The second file lists the questions for which the follow-up questions have not been identified.
