**Subject:** 2012-01-25 Woodlan, Extension Request for RAIs 239 and 244

Steve,

As I mentioned previously, the Luminant response for RAI-244 re IST (3.9.6) is dependent upon an RAI response which is being developed by MHI for the US-APWR DCD. We cannot give a complete answer to the questions until MHI files their final response. I do not have a specific schedule for the DCD RAI response. In anticipation that the DCD response may be available in the next several weeks, I am requesting an extension for the RAI-244 due date to 2/29/2012.

In addition, the response to RAI-239 re EQ (3.11) is closely linked to RAI-244. They both involve describing the content of our procurement specifications and may rely upon the same FSAR markup. As such, I believe these responses should go in together and I therefore request an extension until 2/29/12 for RAI-239 as well.

Thanks,

**Donald R. Woodlan**  
Manager, Nuclear Regulatory Affairs
