January 27, 2012

To whom It may concern,

This letter is to attest that on January 25, 2012, Douglas Housman, M.D. and Ian Crooks participated in the clinical use of a Nucletron Microselectron HDR afterloader at our center. Two patients were treated and the above individuals observed the setup of the patients, insertion and localization of the treatment applicator, and deliver of the radiation. Furthermore, Ian Crooks participated in the daily QA testing of the HDR unit.

I am listed as an AU for HDR on NRC license 06-085444-01 and supervised the above activities.

Thank you.

A handwritten signature in cursive script, appearing to read "SZ, M.D.", with a horizontal line underneath the letters.
