RE: K-North Release Soil Sample Results, Permit 633, Cameco Resources

Dear Mr. Spackman:

Power Resources, Inc d/b/a Cameco Resources (Cameco) is submitting soil sample results for the release that occurred on March 10, 2011 in the K-North Wellfield due to failure of the ModuTank used for pump testing. The results show that the background sampling results are the same or higher than the results for samples taken in the spill area. As discussed with the Wyoming Department of Environmental Quality/Land Quality Division (LQD) during the November 2011 Site Inspection, November 9 and 10, 2011, Cameco proposes that remediation not be required. Cameco will maintain the spill area in the site base maps and to be reviewed at decommissioning. The table below summarized the results found in the attached Analytical Report from Energy Laboratories.

	Samples 0" to 2" Depth				Samples 2" to 6" Depth
