INTRODUCED

May 31, 2006

H. 5236

Introduced by Reps. Sandifer and Cato

S. Printed 5/31/06--S.

Read the first time May 31, 2006.

A CONCURRENT RESOLUTION

TO ADVANCE THE NEED FOR ELECTRIC UTILITIES TO BUILD NEW NUCLEAR POWER PLANTS IN SOUTH CAROLINA AND TO URGE THE OFFICE OF REGULATORY STAFF AND THE PUBLIC SERVICE COMMISSION TO ENCOURAGE SUCH CONSIDERATION.

Whereas, the demand for electricity in the State of South Carolina is growing, and it is in our best interest for South Carolina utilities to produce the needed electricity in our State through the development of new nuclear power plants; and

Whereas, nuclear power plants enhance South Carolina's economic competitiveness by producing electricity at stable prices, helping to retain existing industry and to attract new business while also making a substantial economic contribution to the State in the form of significant capital investment, jobs, and tax base; and

Whereas, nuclear power plants produce electricity at high levels of safety and reliability, while emitting no greenhouse or acid rain gases; and

Whereas, the United States Congress passed the 2005 Energy Bill, providing a number of incentives that function to encourage electric utilities to pursue nuclear energy to reduce dependence on energy supplies from unstable parts of the world; and

Whereas, the Office of Regulatory Staff and the Public Service Commission are the appropriate state agencies to promote the construction of nuclear power plants by South Carolina utilities and to articulate the necessity for utilities to take reasonable steps to maintain the nuclear generation option in South Carolina. Now, therefore,

Be it resolved by the House of Representatives, the Senate concurring:

That the General Assembly of the State of South Carolina, by this resolution, advance the need for electric utilities to build new nuclear power plants in South Carolina and urge the Office of Regulatory Staff and the Public Service Commission to encourage such consideration.

Be it further resolved that a copy of this resolution be forwarded to each member of the Public Service Commission and to the Executive Director of the Office of Regulatory Staff.
