Attn: Document Control Desk/Exempt Distribution

Dear Sir or Madam:

On January 9th I submitted our Material Transfer Report through the Postal Service as a certified letter requiring a return receipt. Using the Postal Service's online tracking I have discovered that the Material Transfer report reached your office on January 17th, but a signature was not available, so the letter went back to the Post Office and is now awaiting a request from your office for redelivery. Per the Post Office, a slip was left at your office on the 17th indicating that a delivery attempt had been made and to contact the Post Office to arrange redelivery. The parcel number is 70000520001397429670. If the aforementioned letter cannot be redelivered, please contact me as soon as possible and I will re-send the documents.

Respectfully,

Mike Hansen
