Wayne:

By letter dated June 2, 2011, as supplemented by letter dated August 1, 2011, STP Nuclear Operating Company (STPNOC) submitted a License Amendment Request for approval of a revision to the fire protection program related to alternate shutdown capability for South Texas Project STP, units 1 and 2. The U.S. Nuclear Regulatory Commission Staff's Reactor Systems Branch is in the process of reviewing your application and have the attached request for additional information for completing its review.

These RAIs were transmitted to you on January 30, 2012 and were discussed on February 8, 2012. Mr. Ken Taplett agreed that STPNOC will respond to the request within 30 days from the date of this e-mail. Please treat this request as formal request for RAIs.

Please note that there will be additional RAIs from the Fire Protection Branch.
