Wayne:

Attached is the copy of the Request for Additional Information (RAI) from U.S. Nuclear Regulatory Commission's (NRC) Fire Protection Branch for the subject license amendment request. The information is required for the NRC staff to complete its review of your request.

Draft RAIs were transmitted to you on February 2, 2012 and were discussed on February 16, 2012. Mr. Ken Taplett agreed that STP Nuclear Operating Company will respond to the request within 30 days from the date of this e-mail. Please treat this request as formal request for RAIs.

Please note that RAIs from our Reactor Systems Branch were transmitted on February 8, 2012.

Thanks.
