

UNITED STATES  
NUCLEAR REGULATORY COMMISSION

REGION III  
2443 WARRENVILLE ROAD, SUITE 210  
LISLE, IL 60532-4352

JAN 27 2012

Beth Roberts  
Radiation Safety Officer  
Bristol-Myers Squibb Company  
Attn: Greg Luff  
4601 Highway 62 East  
Mt. Vernon, IN 47620

Dear Ms. Roberts:

Enclosed is Amendment No. 01 to your NRC Material License No. 13-32738-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Also, please note, we have also updated license condition 17.

You indicated that you registered for a Radiation Safety Officer course with Nevada Technical Associates, Inc. in June 2012. Please provide a copy of your course completion certificate and the training subjects for our record after the completion of your training.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any questions or errors, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate answers and corrections.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

In accordance with Title 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Frank P.D. Tran  
Materials Licensing Branch
