MEMORANDUM TO: Alexander R. Klein, Chief
Fire Protection Branch
Division of Risk Assessment
Office of Nuclear Reactor Regulation

FROM: Charles E. Moulton, Fire Protection Engineer */RA/*
Fire Protection Branch
Division of Risk Assessment
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF THE JANUARY 19, 2012, CATEGORY 1 MEETING
REGARDING NATIONAL FIRE PROTECTION ASSOCIATION
STANDARD 805: NUCLEAR REGULATORY COMMISSION/NUCLEAR
ENERGY INSTITUTE MANAGEMENT DISCUSSION

On January 19, 2011, the U.S. Nuclear Regulatory Commission (NRC) Division of Risk Assessment (DRA) management held a meeting with Nuclear Energy Institute (NEI) management to discuss questions requiring management attention related to National Fire Protection Association (NFPA) Standard 805.

DRA management presented, as a meeting handout, a list of topics for future management discussions. NEI proposed that there were additional topics that could also be discussed. The participants agreed that these additional topics might include:

- Application submittal schedules
- Consistency in applications
- Potential review efficiencies
- Implementation of post-transition monitoring programs
- Implementation of the fire modeling performance based approach
- Unreviewed PRA methods and sensitivity studies of these methods

NEI requested that future meetings be expanded to one hour from 30 minutes, and be held on a monthly, instead of quarterly, basis. DRA management agreed with this. The participants agreed that the next meeting would take place on February 16, 2012, at NRC headquarters.

A meeting handout is available in the Agencywide Documents Access and Management System at accession number ML120190298.
