RECEIVED

FEB 9 2012

DNMS

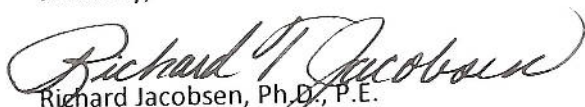

Dear Ms. Hammond:

We request an amendment to USNRC License 11-27380-01 to replace Dr. Jay Kunze with Mr. Peter C. Farina as the Radiation Safety Officer. Dr. Kunze had agreed to remain in the position on an interim basis until this amendment has been approved.

A copy of Mr. Farina's CV, a list of detailed isotope specific experience, the letter of delegation of Authority and the duties and responsibilities of the Radiation Safety Officer is included along with this amendment request as attachment 1. Mr. Farina has served as the Radiation Safety Officer on Georgia State University's broad license from 2001 and has served intermittently on the University of Georgia's broad and specific licenses. He is a certified industrial hygienist and certified hazardous material manager with over 20 years of health physics and radiation protection experience.

We thank you for your consideration of these requested amendments to USNRC License 11-27380-01.

Sincerely,

Richard Jacobsen, Ph.D., P.E.
Interim Vice President for Research
Idaho State University

Peter Farina M.S., C.I.H., C.H.M.M.

Education	PhD Student - Geochemistry	2010 – Current	Georgia State University Atlanta, Ga
	Master of Science – Physics	1987 – 1989	Florida State University Tallahassee, Fl
	Bachelor of Science – Physics	1983 – 1987	University of Massachusetts Amherst, Ma
	Bachelor of Science – Astronomy	1983 – 1987	University of Massachusetts Amherst, Ma
Professional experience	1/3/2012- Current	Idaho State University	Pocatello, Id
	Director, Technical Safety Office <ul style="list-style-type: none"> - I direct the Radiation Safety, Biological Waste, Chemical Safety and Hazardous Waste programs for Idaho State University and it's outlying campus's - I direct a staff of 3 full time and 3 part time employees for a University of 15,000 students that includes an accelerator facility and training reactor. - I meet regularly with senior administration to advise them regarding health and safety issues. - I am the University's liaison with regulatory agencies. - I will hold the duties and title of Radiation Safety Officer for the University's broad scope license. - I serve as a member of the Radiation Safety Committee. - I consult with architects and project managers on building modifications and construction with regards to safety, laboratory design and air handling systems. - I perform as the University's Industrial Hygienist. - I perform the duties of Emergency Responder. 		
	2008-1/3/2012	Georgia State University	Atlanta, Georgia
	Director, (Formerly Asst. Director) Safety Programs <ul style="list-style-type: none"> - I directed the Radiation Safety, Biological Safety, Chemical Safety and Environmental Safety programs and direct a staff of 6 full time and 3 part time employees for a University of 32,000 students that includes a Cancer Research Center and a BSL4 facility. - I met regularly with senior administration to advise them regarding health and safety issues. - I was the University's liaison with regulatory agencies. - I held the duties and title of Sr. Radiation Safety Officer for the University's broad license. - I served as a member of the University's Laboratory Safety Committee, Radiation Safety Committee and IACUC. - I consulted with architects and project managers on building modifications and construction with regards to safety, laboratory design and air handling systems. - I performed as the University's Industrial Hygienist. - I performed the duties of Emergency Response Incident Commander. 		
	2001 – 1/3/2012	Georgia State University	Atlanta, Georgia
	Senior Radiation Safety Officer (Formerly Radiation Safety Officer) <ul style="list-style-type: none"> - I was responsible for a Radiation program of over 60 active Principle Investigators, over 300 radiation using personnel and the University's Radioactive Materials License. - I supervised the Radiation Safety Staff. - I conducted Radiation Safety training for University faculty, students and staff. - I managed the radioactive waste, dosimetry, bioassay, laboratory inspection, laser safety, x-ray safety and sealed source programs. - I managed and perform Industrial Hygiene duties including chemical monitoring, asbestos air monitoring (NIOSH 582), accident investigation, laboratory design consultation and fire code consultation. 		

2000 – 2003, 2007-2008

Georgia State University

Atlanta, Georgia

Hazardous Materials Manager/Environmental Program Officer

- Directly managed the Hazardous Materials Program for a large quantity hazardous waste generator (chemical, universal & biological waste programs, emergency response, environmental monitoring, underground storage tanks, refrigerants, asbestos, lead based paints, laboratory safety, SPCC, pollution prevention etc.).
- Managed the activities of the Hazardous Materials staff.
- Estimated, created specifications, bid, contracted & managed all contractors for the abatement of hazardous materials (asbestos removals exceeding \$5000.00, lead, soil, demolitions and groundwater)
- Contracted and managed all phase I & II activities for property acquisitions.
- Maintained the University's Title V Air Permit.
- Oversaw the University Indoor air quality and drinking water quality program.
- Managed the University's emergency mass communication system.
- Performed as a construction project manager for renovations and demolitions where asbestos removal is involved.

1998 - 2000

Georgia State University

Atlanta, Georgia

Hazardous Materials Specialist

- Estimated, bid, contracted & managed all contractors for the removal of asbestos and lead based paint,
- Performed inspections for asbestos and lead,
- Developed and maintained a computerized database for all asbestos containing materials on campus,
- Developed and maintained the asbestos and lead paint management plan for the University,
- Developed and maintained multimedia training programs for asbestos, hazardous waste and chemical safety,
- Consulted with and submitted reports for University clients regarding exposure to hazardous agents,
- Measured and documented air concentrations of asbestos, lead and chemical agents,
- Assisted in performing industrial hygiene, hazardous waste, and radiation safety duties, and
- Responded to and investigated air quality complaints and events.

1996 - 1998

University of Georgia

Athens, Georgia

Environmental Health and Safety Coordinator

- Directly supervised the laboratory safety, industrial hygiene, occupational safety and hazardous response staff (5 full time and 4 part time employees).
- Managed all asbestos related projects and performed asbestos training for a campus with buildings throughout the State.
- Performed all industrial hygiene duties,
- Managed personnel and budget for my section that exceeded \$200,000.
- Served as a consultant to the Laboratory and Radiation Safety Committees,
- Acted as safety Liaison/Safety Officer and performed safety inspections at University farms, Art School, 4-H camps and research stations,
- Developed, implemented and managed the Respiratory Protection Program.
- Scheduled and performed Right to Know training for University employees,
- Led investigations of air quality complaints,
- Taught a graduate level credit course on safety in the sciences for the Biochemistry Department
- Assisted in teaching undergraduate courses in Hazardous Waste and Industrial Hygiene for the Environmental Sciences Department, and
- Performed the duties of Health and Safety Manager in their absence.

1991 – 1996

University of Georgia

Athens, Georgia

Radiation Safety Officer

- Acting Senior Radiation Safety Officer for over a year that required me to manage the Radiation Safety program and staff for a University with over 350 licensed laboratories, 240 Principle Investigators, a Veterinary Medicine School with a full nuclear medicine department, an accelerator facility, a sealed source manufacturing license, 5 large irradiators, a research vessel and research stations.
- Supervised the full time Radiation Safety Specialists and 2 part time assistants.
- Managed the radioactive waste program at a permit B TSD Waste facility.
- Managed the radiation dosimetry and bioassay programs with over 1500 enrollees.
- Managed the Radiation inspection and sealed source programs.
- Managed all environmental monitoring programs for 2 radiological burial sites.
- Developed and facilitated a laser safety program for over 140 lasers.

1989 – 1991

Florida State University

Tallahassee, Florida

Health Physicist

- Performed safety audits of laboratories and waste management duties,
- Managed the radiation monitoring programs, and
- Developed and facilitated a non-ionizing radiation and laser safety program.

DELEGATION OF AUTHORITY

RADIATION SAFETY OFFICER

MEMORANDUM

To: Radioactive Materials Users and Principal Investigators

From: 
Dr. Richard Jacobsen
Interim Vice President for Research
Idaho State University

Subject: Delegation of Authority for Radiation Safety Officer

Peter Farina has been appointed Radiation Safety Officer and is responsible for ensuring the safe use of byproduct materials and other sources of ionizing and non-ionizing radiation. The Radiation Safety Officer is responsible for managing the radiation safety program; identifying radiation safety problems; initiating, recommending, or providing corrective actions; verifying implementation of corrective actions; and ensuring compliance with regulations for the use of byproduct material. The Radiation Safety Officer is hereby delegated the authority necessary to meet these responsibilities.

The Radiation Safety Officer has the authority to immediately stop any operations involving the use of byproduct material and other sources of ionizing and non-ionizing radiation in which health and safety may be compromised or may result in non-compliance with NRC requirements.

RADIATION SAFETY RESPONSIBILITIES OF THE DIRECTOR, TECHNICAL SAFETY OFFICE

The Director of the Idaho State University Technical Safety Office has the responsibility for overseeing three core university functions:

- The University Radiation Safety Program as Radiation Safety Officer
- The University Hazardous Waste and Universal Waste Program
- The University Bio hazardous/Infectious Waste Program

The Director of the Technical Safety Office reports directly to Vice President for Research and serves as the university contact point to all federal, state, and local agencies which interface with the core university functions under the auspices of the directorship. His mission is to assure cooperation and compliance with these agencies. He has the authority to order immediate stop work of any actions deemed to be unsafe or in violation of federal or state laws. The Director of the Technical Safety office has been assigned authority and resources to assure both regulatory compliance and safe operating conditions exist in the areas over which he has responsibility. Most recently the Director of the Technical Safety Office has been asked to undertake the role of developing and coordinating an Integrated Safety Program that applies to all University entities. The Center for Advanced Energy Studies (CAES) Safety Officer reports to the Director of the Technical Safety Office and is delegated the responsibility as required to perform related duties in the CAES facilities in Idaho Falls, Idaho.

Radiation Safety Officer:

Specific duties and responsibilities of the RSO include:

- Monitoring and surveys of all areas in which radioactive material is used,
- Oversight of ordering, receipt, surveys, and delivery of radioactive materials,
- Packaging, labeling, surveys, etc., of all shipments of radioactive materials leaving the institution,
- Oversight of the personnel monitoring program, including determining the need for and evaluating bioassays, monitoring personnel exposure records, and developing corrective actions for those exposures approaching maximum permissible limits,
- Training of all personnel,
- Oversight of the radioactive waste disposal program,
- Oversight of inventory and leak tests of sealed sources of radioactive material,
- Oversight of any decontamination efforts to remove radioactive material,
- Investigating any incidents and responding to any emergencies,
- Maintaining all required records

The Radiation Safety Officer provides guidance and advice to the Radiation Safety Committee while collaborating with them in the development of University Radiation safety Policy.

The Radiation Safety Officer also serves as the University LASER Safety Officer and participates with the University LASER Committee in establishing and implementing policy for the safe use of LASERS at Idaho State University.

LICENSING AND/OR TECHNICAL REVIEWER

This is to acknowledge the receipt of your:

☒ LETTER and/or ☐ APPLICATION DATED: 02/06/2012

The initial processing, which included an administrative review, has been performed.

☒ AMENDMENT ☐ TERMINATION ☐ NEW LICENSE ☐ RENEWAL

- ☒ There were no administrative omissions identified during our initial review.
- ☐ This is to acknowledge receipt of your application for renewal of the material(s) license identified above. Your application is deemed timely filed, and accordingly, the license will not expire until final action has been taken by this office.
- ☐ Your application for a new NRC license did not include your taxpayer identification number. Please fill out NRC Form 531, located at the following link:

<http://www.nrc.gov/reading-rm/doc-collections/forms/nrc531.pdf>

Send the completed NRC Form 531, by facsimile, to the following number: (301) 415-5387

A copy of your action has been emailed to our License Fee and Accounts Receivable Branch, in our Headquarters office in Rockville, MD. You will be contacted separately if there is a fee issue involved.

Your application has been assigned the above listed **MAIL CONTROL NUMBER**. When calling to inquire about this action, please refer to this control number. Your application has been forwarded to a technical reviewer. Please note that the technical review, which is normally completed within 180 days for a renewal application (90 days for all other requests), may identify additional omissions or require additional information. If you have any questions concerning the processing of your application, our contact information is listed below:
