SUBJECT: Comments of the Draft Environmental Impact Statement for the Proposed International Isotopes Fluorine Products Facility in Lea County, New Mexico (NRC Docket ID# NRC-2010-0143)

Dear Ms. Bladey:

The purpose of this letter is to provide you with my comments on the proposed international Isotopes fluorine products facility in Lea County, New Mexico. I support this project and believe that it will be a positive contribution to Lea County and will fulfill an important role in the safe and environmentally sound treatment of depleted uranium hexafluoride. I also believe the facility will produce important fluoride products for U.S. markets and be an asset to U.S. chemical manufacturing capability. I believe the draft Environmental impact Statement thoroughly reviews all of the potential environmental impacts from the proposed facility and I agree with the conclusions reached by the NRC staff that those impacts would be small.

Sincerely,

*Charles R. Martin*

Charles R. Martin

Mr. Charles R. Martin, President, Charles Martin Custom Homes, Ltd., 8584 Katy Freeway, Suite 103, Houston, Texas 77024, has submitted comments on the Draft Environmental Impact Statement for the Proposed International Isotopes Fluorine Products Facility in Lea County, New Mexico. Mr. Martin's comments are attached to this letter. Mr. Martin's comments are in support of the proposed facility and believe that it will be a positive contribution to Lea County and will fulfill an important role in the safe and environmentally sound treatment of depleted uranium hexafluoride. Mr. Martin also believes the facility will produce important fluoride products for U.S. markets and be an asset to U.S. chemical manufacturing capability. Mr. Martin believes the draft Environmental impact Statement thoroughly reviews all of the potential environmental impacts from the proposed facility and he agrees with the conclusions reached by the NRC staff that those impacts would be small.
