Attachments: GANNETT FLEMING 1730.pdf; RER 2012-1-12 with notes for NRC.pdf

Mr. Seeley.

Please review the attachments that should answer your questions below. Attached is the exposure report taken from last quarter for our area 1 badge monitoring that storage location. Also attached is confirmation from the CT DEEP that updates our storage at the only location we are storing at in CT is in our New Haven office.

Hopefully this an acceptable answer Sir, please call me if you need anything additional.

Appreciate your patience.

Subject: Request For Additional Information - Docket# 03020034

Mr. Deering,

This email is a request for additional information regarding your amendment request dated December 20, 2011 (ML113570255). As I mentioned to you on the telephone earlier today, we need the following additional information.

- 1: In order to remove the Danbury, Connecticut location from your license, we need proof of gauge transfer and evidence that there was no radioactive material left behind (i.e. leak tests) when the building was vacated.
- 2: Please clarify that the only location you want authorized for storage is your New Haven office.

We will proceed with the amendment request upon receipt of this information. If you have any questions, please do not hesitate to email or call. Thank you for your cooperation.
