RE: NRC Material License No. 21-12275-02

On 9-19-2011, we sent detailed answers to your questions related to the renewal and change of Borgess license #21-12275-02 from broad scope to limited scope. As of this time we have not had further correspondence on this renewal and license change. We believe a deadline for action on this renewal will occur on 3-19-2012.

If you have further questions about our renewal or the answers we submitted in September 2011, please call and we will be willing to give any further information you may require.

Sincerely,

Paul Jursinic, Ph.D.
Radiation Safety Officer
