Subject: Comments on the Draft Environmental Impact Statement for the
Proposed International Isotopes Fluorine Products Facility in Lea
County, New Mexico
(NRC Docket ID# NRC-2010-0143)

Dear Ms. Bladey:

My comments on the proposed International Isotopes Fluorine Products facility in
Lea County, New Mexico are as follows:

- I support the proposed project with the opinion that it will have a positive effect on Lea County and will contribute to the safe and environmentally sound treatment of depleted uranium hexafluoride.
- I also believe the facility can potentially produce important fluoride products for U.S. markets, which will enhance the capability of the U.S. chemical manufacturing industry.
- I believe the draft Environmental Impact Statement thoroughly evaluates all of the potential environmental impacts from the proposed facility and I agree with the conclusions reached by the U.S. Nuclear Regulatory Commission that the effects of those impacts would be minor.

Sincerely,

David G. Stovall, CPA
Managing Partner
