Lisle, IL

SUBJECT: Request for expedited application for RSO

Dear Ms. Pelke:

Bill Gladden, the designated RSO for the Independence Power and Light Department of the City of Independence, Missouri, retired and left the City in 2007. We are requesting an expedited amendment to the current license (24-18757-052; expiration: January 31, 2013) for the Missouri City Power Plant located at 22225 Mo 210 Hwy, Missouri City, MO 64072 for assignment of Michael Fall as the RSO.

Michael has 30 years experience at Independence Power & Light (IPL), 22 years as an Instrument Technician, and the last 3 years as the Instrument Technician Supervisor. Michael has an Associates degree in Microprocessing Technology in 1987. Michael has been responsible for assuring the annual leak test and shutter test for the eight registered devices at the Missouri City Power Plant, as well as six devices at the Blue Valley Power Plant. Michael contracts with ThermoFisher for consultation and guidance to oversee the leak tests and the shutter tests with reports of the test findings and provide proper radiation safety oversight and direction on an annual basis.

We request an expedited amendment be processed. Should you have any questions or require additional information you may contact Michael at 816-325-7516 or mfall@indepmo.org or Martin Barker at 816-325-7510 or mbarker@indepmo.org or the address listed below.
