Brian Kennedy, Ph.D.
Radiation Safety Officer
Indiana University School of Medicine – Northwest
3400 Broadway
Gary, IN 46408

Dear Dr. Kennedy:

It has come to our attention that Amendment No. 21 to your NRC Material License No. 13-18384-01, issued on July 20, 2011, contained errors in Condition No. 22.

The date of the documents cited in Condition Nos. 22.A. and 22.B. was shown as "January 11, 2011," when it should have been "January 18, 2011" in both instances.

Enclosed is a corrected copy reflecting the appropriate adjustments in Condition No. 22.

We apologize for these errors and for any inconvenience they may have caused.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

If you wish to contact me you may reach me at (630) 829-9841. My fax number is (630) 515-1078.

Also, as a reminder that was originally in my letter to you dated July 20, 2011, in your next licensing request, please provide your fax number to complete our records also. Thank you for your assistance with this request.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

B. Kennedy

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in cursive script that reads "Colleen Carol Casey".
