ATTN Toye Simmons:

I had a telephone conversation with you on 03-15-2012 concerning the status of Helen Kim as an authorized user on our license. At that time I was informed by my superiors that Dr Kim was on a leave of absence. I now have confirmation that she has turned in her resignation.

I would like to request that Helen Kim, M.D. be removed from license number 24-00866-02 as listed under section 12. B. of this license.

We have scheduled for Dr Steven Braun to attend HDR training at one of our sister Hospitals on April 02 thru April 04. I will provide you with the documentation of that training in a form 313A when I have it available so that we may complete our HDR amendment request.

As I mentioned in our phone conversation we have a new Physician that will join our Radiation Oncology group in July and I will be submitting the training and experience documentation for her in the near future. My plan was to address that separate from the documentation for Dr Braun since I did not want to further complicate this ongoing HDR application process and we have some time before she is to join our program. If it is more convenient for you I can include her information with the training documentation for Dr Braun. If that is your preference, please let me know.

I was pleased to meet you face to face during your recent site visit and I truly appreciate all of the work that you have put into this amendment process.

If you have any questions regarding this request or if you require additional information please contact me at (417) 820-7704.

Sincerely,

Nick Lannutti, MS
Radiation Safety Officer
Department of Nuclear Medicine
St Johns Hospital-Springfield

Cc Linda Earnest, Administration
Alan Burns, Radiation Oncology
