RE: License Renewal Request for US NRC Radioactive Material License Number 07-13441-02 and
Docket No. 030-20681

Dear Mr. Courtemanche,

During a recent review of our records the RSO realized that our Radioactive Material License (07-13441-02) is set to expire on March 31, 2012. I recognize that the application will be late in its arrival to NRC however, as discussed in our phone conversation of March 29, 2012, I am sending you this letter to serve as notification that it is our intent to renew this Radioactive Material License Number 07-13441-02 and that the application for renewal is forthcoming.

Please feel free to contact me or Mr. John M. Brisbin, DuPont Wilmington Area Radiation Safety Officer, at 302-695-6896, if you have any questions or require additional information.

Sincerely,

A handwritten signature in black ink, appearing to read "Maurice R. Richard", written over a horizontal line.
