Agree with you, some time you just can't fully communicate in emails.

The lunch caucus would be separate and distinct not with the licensee. And you are right about Cat 1 meeting.

We would like a caucus the day before face to face for maybe 200pm or 300pm, led by Chris Miller.

I have a voice mail into you.

Subject: RE: For Your Review - Draft Meeting Notice - Seabrook ASR

Richard,

There is no large conference room (holding approximately 30 people) available for the proposed meeting duration on January 17, 2012. I was able to find a large conference room available on Thursday, January 19, 2012.

I disagree with your statement, "The meeting with licensee should be Cat. I public observation only but for staff to stick afterwards to entertain q&a from public in room or on phone."

This Category 1 meeting is a public meeting that is a planned, formal encounter open to public observation and participation between NRC staff members and NextEra with the expressed intent of discussing substantive issues (concrete degradation – alkali silica reaction) that are directly associated with the NRC's regulatory and safety responsibilities. At this type of meeting, NRC anticipates that the public would obtain factual information to assist in their understanding of the applicable regulatory issues and NRC actions. The public is invited to observe the meeting consistent with past practice, and the public will have the opportunity to communicate with the NRC after the business portion of the meeting, but before the meeting is adjourned. This does not preclude the licensee from responding to questions if they choose to do so.

I am not sure what you mean when you stated, "[Jan 17, 1200-130, break for lunch and NRC/Lic private caucus, Key Executive will be needed, Chris Miller and ????]."

If the NRC staff needs to caucus during the meeting, we can take a break during the meeting and the appropriate NRC staff can caucus. I cannot condone the NRC and the licensee privately caucusing during a break in a public meeting. Any discussions between the NRC and the licensee should be held in the open public meeting, unless it is safeguards or proprietary information, then we can close that portion of the meeting to the public.

Thanks.

R

Subject: RE: For Your Review - Draft Meeting Notice - Seabrook ASR

At the exit yesterday for this week's inspection, they said to plan for Jan 16 or 17.

That means the final plan and white paper on tensile strength testing will be out on or about Jan. 9 or 10. I strongly suggest we caucus before and after the meeting. The meeting with licensee should be Cat. I public observation only but for staff to stick afterwards to entertain q&a from public in room or on phone.

Please look at your executive calendars for the following

Dec 14 or 15 Executive Brief on development thus far, preliminary planning for management meeting

- with the delay to Jan 16/17 we might be able to capture more Execs on Jan 4 or 5

Jan 9 or 10 Final Plans and White Paper available on Certrex

Jan 16 PM Face to Face, NRC Caucus (Branch Level and the big 3 techs, Execs invited) privately to go over what we see in their final plans

For the Meeting Notice (except for []

Jan 17, Tentative 3 hour meeting 9-12Noon

[Jan 17, 1200-130, break for lunch and NRC/Lic private caucus, Key Executive will be needed, Chris Miller and ????

Jan 17, 130pm Back to Meeting for final debrief and minimal acceptable activities and testing.

Importance: High

Gentlemen:

Attached, for your review, is a draft meeting notice regarding a public meeting on Seabrook ASR issue. With the holidays approaching, please provide comments by December 9, 2011.

Thanks.
John

MEMORANDUM TO: Harold K. Chernoff, Chief
Plant Licensing Branch 1-2
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation

FROM: John G. Lamb, Senior Project Manager
Plant Licensing Branch 1-2
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation

SUBJECT: FORTHCOMING MEETING WITH NEXTERA ENERGY SEABROOK,
LLC (NEXTERA) REGARDING SEABROOK STATION CONCRETE
DEGRADATION

DATE & TIME: Thursday, January 19, 2012
12:00 p.m. - 4:00 p.m.

LOCATION: U.S. Nuclear Regulatory Commission
One White Flint North
11555 Rockville Pike, Room O-13B4
Rockville, Maryland

PURPOSE: The purpose of this meeting is to discuss NextEra plans regarding
concrete degradation caused by alkali silica reaction (ASR) at Seabrook
Station.

CATEGORY 1*: This is a Category 1 Meeting. The public is invited to observe this
meeting and will have one opportunity to communicate with the NRC after
the business portion, but before the meeting is adjourned.

MEETING CONTACT: John G. Lamb, NRR
301-415-3100
Jgl1@nrc.gov

* Commission's Policy Statement on "Enhancing Public Participation in NRC Meetings" (67 FR 36920), May 28, 2002.
