I don't plan to attend.

I'd push for a different date given the DPR holiday event on 12/20.....I don't know if you or Tim need to participate. I would think that Holly and I could handle it.

Does DPR need to participate?

DRS administrative assistant will be coordinating the compatibility of times. Our preferred date is 12/20 but we can do it early if needed at any time.

It would be nice if the branch chief can grease the skid on schedule and have at least on executive attend. This development is as a result of Region I management discussion between Chris Miller, Darrell Roberts, Pete Wilson, Art Burritt and Richard Conte. It will be appreciated if we can get the draft TIA earlier than 12/31 like 12/18.

Please contact secretaries in the these NRR Region I Divisions to see availability, I never trust outlook but for executive it might be good. Diane you did this before in a frustrating but successful way, if you can help please let us know.

Purpose of the call is to brief NRR executives on Region I's plan and bases to include the open questions from the draft TIA on the Seabrook ASR issue in a re-exit for a standalone inspection which will end the week of Jan. 3-6, 2011. Details on bases to follow. Report will be issued the following week requesting NextEra to respond on the docket to the issues or come in for a management meeting.
